# SNAPSHOTS OF SOLUTION-MAKERS:

## **JAMES HALL: WHY IT MATTERS**

### **An Interview with ExxonMobil**

If you're a passionate advocate for the environment, and you really want to do something to support the world, while ensuring that everybody does have access to abundant energy, then ExxonMobil is the place to do that.

ExxonMobil is taking a leadership role in sustainability, and we advocate to our industry partners that they should also use the latest technology to help [manage their methane emissions](#) effectively.

We all live on the same planet, and we all breathe the same air. So, we've got to protect the planet together and keep everybody safe at the same time.
